

Senior Product Designer

Systems Thinker • Product Strategist • Builder

Profile

Senior Product Designer with 6+ years of experience transforming complex systems into intuitive products. From building a design function from the ground up to contributing to products serving 74M+ users and launching my own SaaS product, I specialize in product strategy, systems thinking, and end-to-end execution.

PRODUCT	DESIGN	RESEARCH	TOOLS

Systems Thinking	Accessibility	Competitive Analysis	Supabase
Information Architecture	Prototyping	Journey Mapping	Vercel

Experience

Senior UX/UI Designer | OPTiMO IT | 2022–Present

- Lead UX strategy across federal and enterprise software products.
- Contributed to Daily Digest, Campaign Portal, and Consumer Dashboard experiences supporting 74M+ users and billions of annual campaign impressions.
- Collaborated across product, engineering, and stakeholder teams to modernize legacy experiences while maintaining accessibility and compliance standards.
- Established scalable design patterns and cross-product frameworks.

Lead UX/UI Designer | AIMSPiUS Software | 2021–Present

- Built the design function from the ground up.
- Designed workflows supporting warehouse operations responsible for 100K+ scheduled pickups while reducing manual processes and operational friction.
- Designed for desktop, tablet, mobile, and handheld operational devices.

Founder / Product Designer / Developer | The Sideline | 2026–Present

- Identified an underserved market opportunity and designed, built, and launched a coaching intelligence SaaS product in approximately five weeks.
- Owned product strategy, UX, frontend, backend, QA, and launch planning.
- Created a coaching intelligence system that transforms play-calling behavior into actionable insights and long-term decision-making improvements.
